Objective

I'm seeking an entry-level position where I can bring my coding skills and enthusiasm to a dynamic team. I'm eager to apply my knowledge to create innovative solutions and continue developing my expertise.

Education

• Master of Computer Application (June, 2024) - Sri Manakula Vinayagar Engineering College, Puducherry, India
CGPA: 8.61

• Bachelor of Computer Science (August, 2022) - Achariya Arts & Science College, Puducherry, India
CGPA: 6.74

• Higher Secondary (March, 2019) - Sri Ramakrishna Vidyalaya Higher Secondary School, Puducherry, India
Percentage: 51

• SSLC (March, 2017) - Fatima Higher Secondary School, Puducherry, India
Percentage: 77

Work Experience

Full Stack Developer Intern
RKS Infotech, Puducherry, India
July 2024 – Present

• Developed a comprehensive web application for managing leads from various sources (IndiaMART, JustDial, Facebook, Instagram) using their APIs.

• Designed and built features for lead management, task assignment to executives, and user management.

Technical Skills

• Frontend: Angular, HTML, CSS, TypeScript, Bootstrap

• Backend: Java SE, Spring Boot, Hibernate, REST API

• Database: SQL

• Tools: Postman, MySQL Workbench, Eclipse IDE

Soft Skills

• Adaptability

• Interpersonal

• Time Management

• Active Listening

Academic Project

• **Enhanced Remote-Control Interface for Productivity Tools**

Languages & Framework: Java, XML (Android SDK)

Description: Created an Android app for remote control of PowerPoint presentations, allowing slide navigation, presentation control, and zoom adjustments via a user-friendly interface. Ensures smooth communication between the Android device and presentation server for improved presenter mobility.

Certifications

• In-Plant Training **(Lenovo,2022)**

• AWS Academy Cloud Foundations **(2023)**
